

Add Deck Cargo to your Bulker for Increased Operational Flexibility

**Improving your ship's profitability
by carrying cargo on deck**

If your Bulk Carrier by design is not yet approved to carry deck cargo we are at your disposal to perform the necessary studies and get them approved by Class.

Our approach involves:

- Discussion with owners about market requirements
- Define class requirements for all necessary documentation that needs to be submitted to Class for approval
- Final agreement with owners for the project details
